

**Extra Practice 1****Lesson 1: Investigating Equal Groups**

1. Write a multiplication sentence for each picture.

2. Kyle bought 3 bags of oranges.  
There were 5 oranges in each bag.  
How many oranges did Kyle buy?  
Draw a picture and write a number sentence to show your solution.
3. Can you use multiplication to find how many in all? Explain.

**Lesson 2: Relating Multiplication and Repeated Addition**

1. Use this picture.

- a) Write a repeated addition sentence.  
b) Write a multiplication sentence.
2. Write as a multiplication sentence.  
a)  $2 + 2 + 2$                       b)  $4 + 4$                       c)  $1 + 1 + 1 + 1 + 1$
3. Write as a repeated addition sentence.  
a)  $4 \times 3 = 12$                       b)  $5 \times 2 = 10$
